Product Description

Tohatsu 9.8 HP MFS9.8CEFS EFI Outboard Motor

The all new Tohatsu 9.8CEFS 9.8hp outboard motor has set the standard for affordable and portable power. The MFS9.8CEFS Weighs just 89 lbs, the lightest 9.8hp Fuel Injected Motor available on the market today. This model is equipped with Electric Start, a 15 inch Short Shaft, with tiller handle control. This Tohatsu outboard engine combines a quiet smooth ride with plenty of power and great fuel efficiency due to engine design and fuel injection technology. The MFS9.8CEFS outboard motor is an excellent choice for small skiffs, inflatables, and sailboats for auxiliary power.

Freight on this engine included within the 48 states. (Some locations excluded such as airport delivery, island delivery, etc.) Call us at 931-650-4122 if you have questions about shipping.
