Product Description

Tohatsu MFS20ES Outboard Motor

The Tohatsu 20 HP EFI outboard motor, Model MFS20ES, with the 15 inch short shaft, tiller steering, and manual start is both affordable and perfect for larger sized aluminum boats, jon boats, skiff or larger inflatable boats.

Boasting the honor of the lightest weight outboard in its class, Tohatsu's newly designed MFS 20hp Electronic Fuel Injection (EFI) is a great choice for your boat. Lighter in weight than the previous Tohatsu 20hp four stroke, this model delivers a higher level of performance.

The Tohatsu 20hp electronic fuel injection four stroke outboard has exceptional torque and top end speed, with low vibration. The fuel injection technology has easy startup with no choke and smooth, crisp acceleration through all RPM ranges. Another added benefit of EFI versus carbureted outboards is the fuel efficiency at wide open throttle, which allows you to go farther on less fuel.

This powerful portable delivers the power you need at a price that will not break the bank. Standard features include forward, neutral and reverse shift lever on the front of the engine, a 3.1 gallon separate fuel tank and a 5 year factory warranty.

Specifications:

- Engine Type: 4-Stroke
- Propshaft HP: 20 hp
- 2-Cylinder
- Shaft Length 15" (Short Shaft)
- Tiller Steering
- Rope Start

- Weight 94.7 Lbs
- RPM Range: 5400-6100
- Displacement: 20.32 cu. in. (333 cc)
- Gear Ratio: 2.15:1
- Standard Propeller: 3-Blade Aluminum
 - 9.25" x 10"

Standard Features Include:

- Forward, Neutral and Reverse shift
 - Electronic Fuel Injection
 - Water cooled
 - 3.1 Gallon External Fuel Tank and Fuel Line
 - Color: Blue
 - Factory Warranty: 5 years
-
