### Product Description

#### 2022 Tohatsu 20 HP MFS20EEPTS-X Outboard Motor

Boasting the honor of the lightest weight outboard in its class, Tohatsu's newly designed MFS 20HP Electronic Fuel Injection (EFI) is a great choice for a wide variety of boaters. This 20HP electronic fuel injection four stroke has exceptional torque and top end speed, with low vibration. Another added benefit of an EFI is the fuel efficiency at wide open throttle, which allows you to go up to 50% farther on less fuel.

Also available on many models is the Power Tilt feature. The 20 hp Power Tilt is ideal for inflatable, fishing, and pontoon boats. The uniquely designed engine improves functionality and convenience with its light power tilt and transom bracket. Now you can tilt your motor out of the water with just the push of a button. Simplify your boating experience with a power tilt model. Try our new 20hp EFI for the ultimate boating experience because you don't deserve anything less.
