Product Description

2023 American LandMaster L5 - 4WD

Industry's Best 4WD UTV In Features and Price

It's everything you love about the L5, but now in a wider, smoother-riding, 58" track width. With its commercial-grade, high-torque engine, heavy-duty towing power, and affordable price point who wouldn't want this American-built machine? Now built with all 30+ new features in safety & reliability, performance, design, and ride & drive experience - giving you everything you need in a UTV at an industry-best price point. The L5w is capable of traveling over aggressive bumps, hills, and uneven terrain without compromising the ride experience. Fully loaded or unloaded you'll experience a smooth ride and drive experience thanks to our best-in-class LROSS suspension system and dual rate shocks.

Plowing snow, hauling timber, dumping stone, transporting others, and towing trailers or other implements are now easier than ever with the L5w. With an all-new easy-to-use, weather-sealed, PLUG N' PLAY electrical system you can add the accessories you need quickly to fit your application and tasks.
